

EXPECTATIONS

“You didn't get sick overnight, do not expect to get better overnight.”

The majority of patients who enter our office have been developing their illness for 20-30+ years. The process of getting well is much like the stock market; you will have good days and bad days. However, as you look back on your care you will realize you have always been progressing. I have been treating very sick people including myself for many years and I have never seen or experienced a progression to health in any other way.

My point is you are going to have bad days and that does not mean you are regressing. You will also have good days and those good days do not mean that you are cured.

True healing takes time. You can cover symptoms in hours or days but to remove a cause you will need to be patient and committed to the process. I can tell you from personal experience. I was diagnosed with autoimmune thyroid disease (Hashimotos) along with two other autoimmune diseases and a fourth developing and was very sick. After months of treating, I was finally able to see the light at the end of the tunnel. My hope had returned.

What You Can Expect From Us:

1. **Our commitment** to get to the true cause of your illness.
2. **Our support**, we are here to offer you not just hope but a path to follow.
3. **Encouragement** based on our experience of treating very sick patients and going from pain to purpose in our own health battles.
4. **Value**, we understand that the majority of our patients have financial burdens many of which occur because of their illness. Therefore, we created a health investment discount package to make it more affordable (based on the minimal amount of visits, testing and fees). We obviously have to charge for our services, as we are a business but by no means over charge in regards to today's medical fees. It is our goal to restore your health and life.
